

# An electrifying case.

## The revolutionary Aria Charging Road Case

Get the ultimate protection for your Aria Forte music stand lights with the Aria Charging Road Case. Designed for fast setup and teardown, the charging road case rolls on stage during setup for instant access to your stand lights. After the performance, slip each light into its own cubbie and charge away. When you're done charging, close the case for easy storage and/or transport to the next venue. Large four-inch casters make it easy to move, and also lock to ensure it stays put. Protect your investment and save labor at the same time with the perfect companion to your lights.

## Specifications
