

Plug-In Performance.

Introducing the Aria Diva.

The LED music stand light used by most professional orchestras, pits, television and touring productions is perfect for illuminating your music stands with bright, even light. Introducing the Aria Diva. Cool to the touch and durability to last the ages.

For productions, add full-range dimming from your lighting console using our DMX decoder. Highlight one section of the orchestra, do blackouts for the curtain, or create an intimate ambience. If it's just you, our inline dimmer and soft carrying bag make perfect companions for freelancing flexibility.

Bold. Bright. Beautiful. Aria Diva.

Features

- 14-inch wide light ensures that even the largest parts are completely illuminated
- Environmentally friendly LED lighting consumes less than 4 watts of power
- Even light coverage top to bottom
- Low profile provides a clear view
- Maintenance free – no bulbs to replace
- Cool operation – no risk of burns
- Shield reduces glare for the conductor and audience
- Spring-loaded clips fit all solid-desk stands, including Manhasset, Peak, Wenger, and Hamilton
- Full-sized music turns freely
- Clears all orchestral music folders
- Cord switch accessible below your stand for quick access
- Power supply included
- Add Inline Dimmer for full range dimming
- Add DMX decoder for full-range dimming from your lighting console
